## NHR status

To be eligible for the benefits of NHR status (Non-Regular-Resident), you must apply for tax residence with the Portuguese authorities (and not have been a Portuguese tax resident for the last 5 years). To become a tax resident in Portugal one must have lived in Portugal for more than 183 days (consecutive or not) in the past year and prove that you wish to settle in the country permanently (purchase of property, long-term rental contract, etc.)

The tax exemption or reduction depends mainly on your activity and the origin of your income. This exemption is valid for employed or self-employed and for pensioners, however it may vary depending on whether or not you are classified as a "high value-added business".

For pensioners: Pensioners receiving only private sector pensions can benefit from a total tax exemption or a 10% tax on their income based on the year they moved to Portugal. Public sector pensions are taxed in the country of origin.

Referred to as "Europe's Caribbean", some of its stunning landscapes such as the mythical Benagil Caves in Albufeira are very famous.

Portugal's southern region is also known as a golf lovers' paradise. What could be better than perfecting your swing in Algarve? Home to more than 50 golf courses, Algarve is one of the most popular golf spots in Portugal, recognised by top professionals and legendary champions. The courses are all located near the ocean and are renowned for their beautifully maintained grounds year-round.

While the coast boasts a wide range of sporting activities, the hinterland mountains offer many signposted paths for wonderful walking or gastronomic excursions among the many wine and olive oil estates.
